

Mr. E. V. Rowe, of Norway, is an authorized agent of the Advertiser, and any advertisement shown him will be duly appreciated by the publisher.

An apprentice wanted at this office. For particulars inquire at once.

Our record of real estate transfers was unavoidably omitted.

There will be an Inauguration Ball at Norway Hall, Norway, March 4th.

The death of Mrs. Belle Clement of Brownfield reported last week, we understand is a mistake. She is still living but very low.

Capt. W. V. Whitmarsh of the Elm House is the only Oxford County representative that holds a committee chairmanship at Augusta. The Captain is a thorough military man and is well adapted to the position he holds.

In another column there is a notice of the sale of Welcome's Oats for feed. Mr. Sawin of New York, has an excellent lot. He planted a quarter of an acre of oats, which weighed 42 lbs. per bushel strict measure.

Our correspondents in answer to a circular sent them present to our readers the views of the County, relative to the proposed removal of the County buildings. We give it place without comment.

At the Legislature the Oxford County Commissioners have asked for a compensation be advanced to \$2.50 per day and the number of miles travel at 10 cts. per mile. A charter has been asked for a number of years, and it is proposed to deepen and improve the channel of West Branch and Sandy Rivers; also to collect toll on logs that pass through the same. A bill has been introduced to incorporate the Fryburg Club, and ask to hold real estate amounting to \$25,000, also open to prevent taking trout in Goodwin's Brook.

The County Commissioners had allowed for services traveling to and from the past year as follows: Valdo Pettengill, \$135.22; Geo. F. Hammond, \$113.75; and Frank J. Bradley, \$216.16. Total \$465.13. This sum is made up at the rate of \$2.00 per day for services and 8 cents per mile for travel. The commissioners ask the Legislature to allow them to have \$2.00 per day and 10 cents per mile in the future.

We have received from E. Rowell, Manager, the Tenth Annual Report of the Maine Industrial School for Girls. This school is not a house, but a refuge for girls between the ages of seven and fifteen years, for those who are friendless, neglected or vagrant, that they may have good influence and training, and may be fitted for positions of honorable self-support. Sidney Perkins, of Paris, is president of this institution. It is situated in Hallowell, in its ten years of usefulness has outgrown its present quarters, and there have been about \$5,000 given by benevolent people to erect an additional building. The whole number received since Jan. 1st, 1875, is 181. Present number is 47. The number of towns and cities from which girls have been committed to the school is 53, not one of these are from Oxford County.

Oxford County is represented in the Legislative Committee on Education. The Senate Committee—H. M. Beane of Norway, on Engrossed Bills; A. P. Bonney of Hebron, on bills of Second Reading. The House Committee—H. M. Beane, on Legal Affairs, on Banks & Banking, on Pensions; A. P. Bonney, on State Lands and State Bonds; J. W. Whitmarsh, on Legal Affairs; C. H. Gilbert of Canton, on Railroads, Telegraphs and Express; Jonathan Barker of Stockholm, on Manufactures; W. V. Whitmarsh of Norway, Chairman on Military Affairs; H. Gilbert, on Interior Waters; Geo. E. Brown, on Counties and Precincts; Geo. C. Brown, on Pensions; Geo. E. Brown, on State Library.

We are happy. The true "L. P." Atwood's Medicine cured our health continues by "temperance in all things."

How often we hear middle-aged people say regarding that reliable old remedy, "N. H. Down's Elixir:—Why, my mother used to use it when I was a child, and I use it in my family; it always cures." Who can name another medicine with such a record as this. Dr. Baxter's Malaria Bitter is another good medicine; and Arnia and Oil Liniment is just what it is recommended to be.

The First Keen Twinges. As the season advances, the pains and aches by which rheumatism makes itself known, are experienced after every exposure. It is not claimed that Hood's Sarsaparilla cures rheumatism—we doubt if there is or can be, such a remedy. But the thousands benefited by Hood's Sarsaparilla, warrant us in urging others to cure rheumatism to take it before the first keen twinge.

Miss Clara Bryant, of Bryant's Pond, is teaching an excellent school here, of 15 weeks.

Joseph Littlehale, clerk for James Bird, is teaching a successful writing school at the school house.

Miss Bell Bradford who is stopping with her sister, Mrs. V. D. Dunham, walked out of her room into the sitting room Tuesday, the first time for three months.

North Rumford. J. H. Hutchins and O. Howard commenced hauling Monday with three teams, two horse teams and an ox team.

Maurice Howe of Lewiston, Idaho, made us a short visit this week. He thinks it is a fine country and if he can go there and be contented he will do far better than he can here.

When the goose question is solved please let me know. I am not sure I can tell when it is right.

LOCKE'S MILLS. The Ladies' Circle met with Miss Abbie R. Hobbs last Thursday. It was rather bad traveling but there was a big crowd.

There was a ball at the Mount Abram House hall the 19th, with eighteen couples, a very good time. There was an oyster supper and music by Locke's Mills Orchestra, promoter, N. F. Bowker, South Paris.

Mr. Bowker is suffering quite badly from rheumatism.

Sweden. Plenty of hay in this vicinity, the best selling at \$15 per ton.

Arion Jones is wintering twenty-five head of cattle in a very good time. He cuts about forty tons of hay and feeds considerable meat and shorts.

Mrs. Alozo Kimball's health is improving. BLACK MOUNTAIN. Mrs. Moses McAllister is better. Milton R. Howard and three daughters of Oxford are visiting in town.

Moving of County Buildings.

Views of the Advertiser's Correspondents.

ALBANY.—It is thought that a majority are in favor of the removal and would so vote.

ROCKFORD.—O. H. Hersey, esq., has a remonstrance that contains nearly 400 names. Nine-tenths of our voters are opposed to the removal.

BETHLEHEM.—No petition for or against has been circulated here. It is said M. C. Wernell has one the nature of which I do not know. Think our people would be in favor of having the buildings moved here, and would use all proper methods to secure such a result.

BRANT'S FORD.—My impression is that the town would not favor the removal at present. No petition or remonstrance has been circulated.

ROCKFORD.—Divided. A probable majority against moving. Buildings for and against are in circulation.

CANTON.—Almost unanimously opposed to the removal. Deputy Sheriff, Brown, has some 300 names on the remonstrance. The petition has one signer.

DESMARE.—About one third of the voters in this town are in favor of the change, one third against it, and the other third are indifferent as to the result. A petition has been circulated in every ward, and got between 60 and 70 signatures; but no remonstrance has been circulated. No speeches were made on either side of the question. I think if majority would, at this time, be for the change.

FRANKFORD.—Hard question to decide. A dozen or more of our leading citizens are in favor of the removal. Petition circulated by Wm. J. Wheeler of No. 1. Remonstrance by Wm. J. Wheeler of No. 2. The petition has one signer.

FRANKFORD.—The general opinion is that the buildings are well located where they are, and it is not likely that they will be removed. The petition has one signer.

FRANKFORD.—The general opinion is that the buildings are well located where they are, and it is not likely that they will be removed. The petition has one signer.
